DEFINITION

Volunteers are persons who do not receive compensation for assisting in school or District programs. Volunteers are encouraged to use their time and effort to support school and District programs. The Superintendent shall develop procedures that encourage volunteers to assist in school and/or District programs and to facilitate effective communication with persons who volunteer.

Teacher education students or students enrolled in an educational institution who participate in observations and educational activities under direct supervision of a local school teacher or administrator in a public school shall not be considered volunteers.

SUPERVISION

All volunteers shall provide assistance only under the direct supervision of a member of the professional administrative and teaching staff.

Volunteers who assist on a scheduled/continuing basis shall be provided with the same liability coverage as a District employee and shall be provided with a written task description detailing responsibilities and expectations, as well as specific qualifications that may be required.

RECORDS CHECK

The District shall conduct, at District expense, a state criminal records check [includes use of Administrative Office of Courts] on all volunteers who have contact with students on a regularly scheduled and/or continuing basis, or who have supervisory responsibility for children at a school site or on school-sponsored trips.

Applicants with the following convictions/behaviors shall not be authorized to volunteer:

1. All sex-related offense convictions
2. All offense convictions against minors
3. All felony drug-related offense convictions
4. All deadly weapon-related offense convictions
5. A pattern of irresponsible behavior based upon the background check, etc.

No volunteer shall be utilized to supervise students, or deemed to have the authority to supervise students, unless the volunteer has been designated to supervise students by the Principal or designee and the volunteer has undergone the required records check.

ORIENTATION

The Superintendent/designee shall develop orientation materials to be provided to all volunteers who have contact with students on a regularly scheduled or continuing basis. These materials shall include, but not be limited to, pertinent policies and safety and emergency procedures.

School volunteers always work under the direction and supervision of the professional staff at each school and only with those teachers who have requested the services of the volunteer. Pendleton County School Board policies provide for the education, safety and well-being of each student. For this reason, you can understand why the teacher and or principal may request reassignment of a volunteer whose actions are not in the best interest of the school or students.

Confidentiality

To safeguard the privacy of each individual, volunteers must not discuss any student or any student's performance or perceived problem except with that student's teacher. Volunteers **will not** share any information concerning students with anyone!

As a volunteer, you are responsible for:

- Maintaining strict confidentiality with all school or classroom information to which you have access while performing your volunteer activities. This refers to any school records kept on file by the school district. School records include all personally identifiable information, records and information collected, used or kept by the school district about a student.
 - What is personally identifiable data or information?

- Volunteers are legally prohibited from passing confidential information along to any unauthorized individual.

Volunteers are an important part of the educational team. The suggestions and opinions of volunteers are welcome. It is the professional staff, however; who is qualified by law to make decisions regarding the instruction and discipline of students and the management of the school. For this reason, volunteers always work under the direct supervision of teachers and administrators.
